

Anshul Life Sciences
Partnering innovation, adding value.

DST brand of Sodium Starch Glycolate from Yung Zip is now available through Anshul

(September 22, 2017)

Anshul Life Sciences proudly announces its co-operation with Yung Zip Chemical Ind. co., Ltd., as the sole distributor of their DST brand of Sodium Starch Glycolate (SSG) with immediate effect.

DST® is a super- disintegrant used in pharmaceutical and healthcare food.

SSG works by swelling in water completely and expanding 25 times by rapid water absorption and enhances the disintegration rate of tablets as well as reduces negative disintegration effect of hydrophobic lubricants. It is suitable for processes of direct compression, dry and wet granulation in concentrations of 2 – 8% by weight.

DST® brand of SSG has US DMF, conforms with USP/Ph.Eur/BP/JP pharmacopoeias & is well supported with all regulatory documents.

Anshul is carrying sufficient stocks to cater to the customer requirements with continuous uninterrupted supplies and thus exceed customer service expectations.

Anshul & Yung Zip look forward to the continued patronage towards DST®.
