## Innovation Zone Best Ingredient Award at in-cosmetics North America

18/11/2019

Announced in the month of **October**, Black BeeOme™ one of the latest and the most innovative ingredient from Mibelle Biochemistry, won the Innovation Zone Best Ingredient Award at in-cosmetics North America.

**Black BeeOme** is an elixir that is obtained by fermenting the honey of a rare and old **honeybee** species. The honey of this extremely resistant dark bee is produced in isolated Swiss mountain valleys and it is fermented with the bacteria *Zymomonas mobilis*.

### **INCI (EU/PCPC) Declaration:**

**Black BeeOme™ (standard version\*):** (Honey + Zymomonas Ferment) Extract (and) Alcohol (and) Aqua / Water

Anshul Life Sciences

Partnering innovation, adding value.

**Black BeeOme™ pwd (powder version, without preservatives, 2-fold concentrated\*):** (Honey + Zymomonas Ferment) Extract (and) Maltodextrin (and) Aqua / Water

**Benefits:**

- Reduces sebum production for a matte and pure skin
- Regenerates the skin microflora after washing
- Protects and strengthens the skin barrier

**Recommended use level: 1 - 2 %**
